

## Jorgensen Engineering

We develop, produce and market packaging handling systems for the food, pet food, infant formula and pharma industries.

## Our vision

- We want to be the preferred and trusted partner for complete lines within packaging handling.
- We want to be an attractive workplace, which attracts and retains competent and dedicated employees.

## Our core values

Dedication, flexibility, courage, team spirit, drive, customer focus and outcome

*"Building great products  
depends on great people"*

# Visitors instructions

## Code of Conduct & Safety

Dear visitor,  
Welcome to Jorgensen!

This leaflet will help familiarize you with our code of conduct and important safety rules. Please be sure to follow these instructions. We wish you a pleasant and safe stay at our site!

Jorgensen guest network login: Engineer

We have several customers' equipment in our factory, so please be considerate and do not register anything about other customers' equipment. Filming and photographing on our premises is therefore not allowed without authorization.

Smoking and alcohol are forbidden in the building.

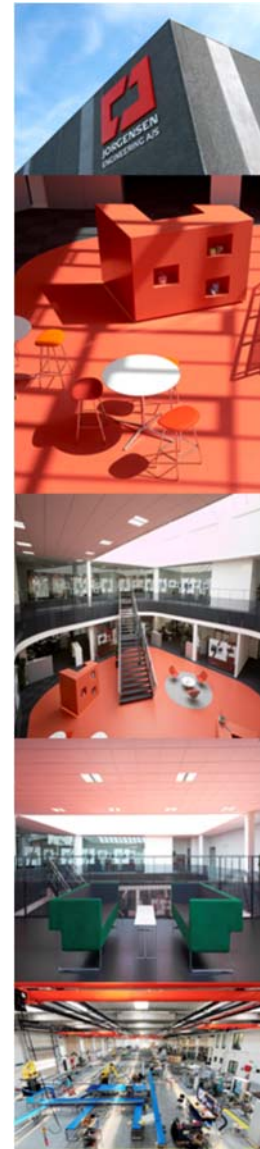

Take care for logistic routes and factory traffic.

Internal information must be kept confidential and may not be passed on to third parties.
